## Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### *The Bonds you own are better than ever, too*

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

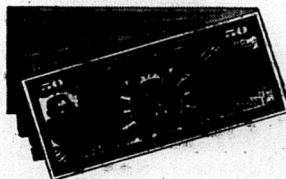

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones  
you own now are better than ever*

**Q: How does the new  $3\frac{3}{4}\%$  interest rate benefit me?**

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed 4% each year to maturity.

**Q: When did the new rate become effective?**

**A:** June 1, 1959.

**Q: Does the new rate change the Bonds I bought before June 1, 1959?**

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q: Will the Bonds I own automatically earn their new rate?**

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q: When my E Bonds mature, will they keep on earning interest?**

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q: With the new interest rate, should I cash in my old Bonds and buy new ones?**

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q: How are series H Bonds different from series E Bonds?**

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q: In what denominations can I buy series E and series H Bonds?**

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q: How safe are U.S. Savings Bonds?**

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q: What if my Bonds should be lost, stolen or destroyed?**

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q: Where can I buy Bonds?**

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?**

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

### Christian Science Group Of Canal Point

The spiritual basis of true supply and abundance will be set forth at Christian Science services Sunday in the Lesson-Sermon on the subject "God the Preserver of Man."

Matthew's account of Christ Jesus' feeding of the five thousand and men with five loaves and two fishes (Chap. 14) will be included in the Scriptural selections. One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (206:15): "In the scientific relation of God to man, we find that whatever blesses one blesses all, as Jesus showed with the loaves and the fishes,—Spirit, not matter, being the source of supply."

From James (1:17) the following will be read: "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning."

### Billy Graham Will Conduct Miami Meet

MINNEAPOLIS, MINN. — In this city, some 1500 miles from Miami as the now obsolete crow flies, and even farther along the air lanes, a group of men and women are praying for the people of Florida, permanent residents and visitors.

Other men and women around the world are praying also in preparation for the Billy Graham Greater Miami Crusade, the first to be set up on a statewide basis. But the group here, most of whose members never have seen the southern state, has a special interest and a faith which give special emphasis to its prayers.

For this group is composed of some 1500 members of the staff of the Billy Graham Evangelistic Association, with head offices at 1300 Harmon Place. These men and women, like the evangelist himself, believe that despite all the warmth and gaiety of Florida there are thousands of persons in the state who are unhappy, worried, uncertain and afraid. They believe that the only answer to the problems that press upon these persons so desperately seeking peace lies in personal commitment to the Lord Jesus Christ.

### Sod Busters Learn To Make Decorations

The making of Christmas decorative arrangements was demonstrated at the December meeting of the Sod Busters Garden Circle at the home of Mrs. Hugh Branch, with the president, Mrs. Edgar Wilder, presiding. Arrangements which had been made by members and brought to the meeting for display were exchanged among those attending. Mrs. W. O. Moss reported on John Dowling's demonstration of Christmas arrangements which she attended at the Flagler Museum in Palm Beach.

### CHRISTMAS BANQUET

The Omicron Chapter of the Sigma Eta Society of Fine Arts will hold its annual Christmas banquet and art exhibit at the Cottage Grill in Belle Glade Monday at 7 p. m.

### Law Specific On Hiring Teenagers

BIRMINGHAM, ALA.—Employers confronted by job-hunting teenagers during the holiday season must be sure that the work and the hours they are assigned conform with requirements of the Fair Labor Standards Act, Sterling B. Williams, regional director of the U. S. Labor Department's Wage and Hour and Public Contracts Divisions, pointed out here today.

"Federal law permits boys and girls as young as 14 to work as sales clerks and office employees in business places engaged in commerce or in the production of goods for commerce," Williams said. Such work by 14- and 15-year olds is not permitted at any time that schools in the area are in session. On these days working time must be limited to three hours per day and 18 hours per week. When schools close for vacation, the boys and girls may work as much as eight hours per day or 40 hours per week if the work is scheduled between 7 a. m. and 7 p. m.

"Since 16 years is the minimum age for general employment under the Act, a wider range of jobs is open for older teenagers," Williams added. Employers also must guard against assigning persons under 18 years to any of the 15 occupations now listed as hazardous by the Labor Department. These include working as an operator or helper on any motor vehicle and operating an elevator or certain power-driven machinery.

In any case where State and Federal child-labor laws differ, Williams said that employers are required to observe the higher standards. Employers and parents are invited to obtain further information from the Wage-Hour Division's regional office at 1401 South 20th Street, Birmingham, Ala., or from the field office at 1200 S. W. First Street, Miami, Fla.

### Bryant Is Visiting In South America

TALLAHASSEE — Governor-elect Farris Bryant flew from Ocala to the state capital recently to pose for a series of pictures with members of the new state cabinet. B. R. Fuller, Jr., director of the State Development Commission, said the pictures would be used in promotional campaigns to attract new industry to Florida.

Posing with Bryant in some of the pictures was Wendall Jarrard, Pensacola, one of Bryant's key campaign workers who is accompanying the governor-elect on a Latin American trip. Presence of Jarrard in the picture gave rise to speculation that he may be slated for a key position during Bryant's administration.

Also posing with Bryant for pictures were Secretary of State-elect Tom Adams, Commissioner of Agriculture-elect Doyle Conner, State School Supt. Thomas D. Bailey, and Ray Green, State Comptroller.

Bryant plans to visit Panama, Columbia and Venezuela in a week-long trip by private plane.

### Week Of Prayer Is Held By Baptists

Nall, Mrs. Charles Maxson, Mrs. J. D. Latham and Mrs. R. T. Smith. At the close of each program offerings for the Lottie Moon Fund were placed beneath a lighted tree.

The Grace Jernigan Circle will also meet in the evening at 7 o'clock.

### Exchange Program For Norway Students

MIAMI—The arrival of a Norwegian marine biologist in the United States recently marked the beginning of an international exchange program for marine scientists of the U. S. and the Scandinavians to study marine organisms of the warm Florida seas.

Selected as the first Nordic American Scientific Exchange Fellow is Dr. Frederik Beyer from the University of Oslo, Norway. Educated in England, Dr. Beyer is the inventor of a special bathypelagic net used with success to obtain rare specimens of deep-sea fishes.

Two scientists or graduate students will be selected each year from candidates in Finland, Norway, Denmark and Sweden to spend six months at the University of Miami Marine Laboratory. They may conduct research, take courses and visit neighboring Caribbean marine laboratories.

Similarly, two Americans will study aboard, spending six months at one laboratory or devoting the time to a tour of Scandinavian marine research facilities. Primary consideration is given American candidates whose training and research experience have been in tropical climates.

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.30 a week. In 5 years you'll have Savings Bonds worth \$2055 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.
